Dear Sir/Madam:

The purpose of this correspondence is to express my support in the matter of the TWU Application. I do not feel it necessary to provide my opinion on the matter, legally or otherwise, as I feel both sides of the debate have been near beaten to death. However, for many reasons, including my interpretation of the law and my overall concern as to the state of rights, to free expression, conscious, association and religious freedom, in our country. With the above said, I would like to express my overwhelming support for TWU and the Federation's decision to approve their new law program.

With respect,

Simon Z. Hodge B.A., J.D.
